STEPPING FORWARD: The school community came together for the many activities that took place at the annual sports event

Synergy'19 concludes successfully

ASPAM Indian International School, Sharjah recently wrapped up its three-day annual sports event, titled Synergy'19. All four school houses — Amber, Coral, Jade, and Opal — competed in the true spirit of sportsmanship with each other for the coveted Rolling Trophy. This trophy is awarded to the best house of the year. Our principal launched the event with the release of a dove.

The younger kindergarten students displayed teamwork as we cheered them on. Meanwhile, the middle and senior school students achieved great athletic feats in tasks such as relay and 100-metre races, as well as football, basketball, and volleyball matches. The highlight of the event was the mass drill which saw all the students gearing up for the upcoming sports.

The school staff were also engaged in the

event and took part in a tug-of-war competition. Parents in attendance had quite a pleasant surprise when they were called to volunteer for a few fun activities. It was a wonderful three days that saw everybody take the time out to enjoy. After all, sports is all about fun and team building.

Students to volunteer for the Special Olympics

Dwight School Dubai (DSD) recently had the honour of hosting Seth Amofo, the Special Olympics World Games Community Engagement Manager. Taking place next month, the Games will be the world's largest humanitarian sports event for people with intellectual disabilities.

Amofo introduced students and teachers to the Special Olympics, and gave them an understanding of its mission and how it is unique from other

sports programmes. The visit was organised by the academic management to encourage the school community to volunteer in the upcoming Special Olympics, which will be held in Abu Dhabi.

DSD teachers, Filiz Sevil and Robert Graham, had already registered to volunteer and are set to help with the track clinic. It will be run by the 2012 Olympic champion and three-time world champion, sprinter Allyson Felix. **YT**
